Two numbers occur after words in the index: the first refers to the page where the word is illustrated and the second to the item number of the word on that page. For example, above [ə bʌv<sup>2</sup>] 102 2 means that the word *above* is the item numbered 2 on page 102. If only a bold number appears, then that word is part of the unit title or a subtitle.

The index includes a pronunciation guide for all the words illustrated in the book. This guide uses symbols commonly found in dictionaries for native speakers. These symbols, unlike those used in transcription systems such as the International Phonetic Alphabet, tend to preserve spelling and so should help you to become more aware of the connections between written English and spoken English.

All pronunciation symbols used are alphabetical except for the schwa [ə], which is the most frequent vowel sound in English. If you use it appropriately in unstressed syllables, your pronunciation will sound more natural.

You should note that an umlaut (ü) calls attention to the special quality of vowels before [r]. (The sound [ö] can also represent a vowel not followed by [r] as in *claw*.) You should listen carefully to native speakers to discover how these vowels actually sound.

### Stress

This guide also follows the system for marking stress used in many dictionaries for native speakers.

(1) Stress is not marked if a word consisting of a single syllable occurs in isolation.

(2) Where stress is marked, two levels are distinguished:

a bold accent (') is placed after each syllable with primary stress;

a light accent (") is placed after each syllable with secondary stress.

### Syllable Boundaries

Syllable boundaries are indicated by a single space.

**NOTE:** The pronunciation used in this index is based on patterns of American English. There has been no attempt to represent all of the varieties of American English. Students should listen to native speakers to hear how the language actually sounds in a particular region.

Pictures convey meaning more clearly than words alone. **The New Oxford Picture Dictionary** presents over 2,400 vocabulary words, clearly depicted on 102 pages of full-color, contextualized illustrations. Vocabulary is introduced within 82 topics, which range from such basics as food, clothing, and shelter to more specific topics such as the space program, occupations, and sports. An index includes all the vocabulary words with a clear, easy-to-follow pronunciation guide. The Dictionary can be used at all levels, by all ages, to teach all language skills. With the components, it provides a complete language development program. It's an invaluable resource every student and teacher needs to have.

**The New Oxford Picture Dictionary** contains over 2,400 words contextually presented in 102 beautifully illustrated pages. Available in paperback or hardcover.

**Bilingual Editions** (Spanish, Chinese, Vietnamese, Cambodian, Japanese, Korean, Navajo, Polish, Russian) present the second language in blue alongside the English word.

**Wall Charts** (100) feature 18" x 22" full-color reproductions of all the Dictionary pages, with vocabulary numbered on the front and listed on the back of each chart.

**Overhead Transparencies** (100) feature full-color transparencies of all the Dictionary pages for use on overhead projectors.

**Vocabulary Playing Cards** (80 laminated) include 40 color illustrations and corresponding Dictionary vocabulary, as well as a booklet of activity suggestions.

**Cassettes** (four C-60) feature a reading of all the Dictionary vocabulary.

**Teacher's Guide**, for beginning- through advanced-level students, offers introductory, language, and culture notes, as well as activity suggestions for use of the Dictionary in the class.

**Beginner's Workbook**, for students with no prior knowledge of English, provides extensive page-by-page practice with the vocabulary presented in the Dictionary.

**Intermediate Workbook**, for low- to high-intermediate level students, reinforces Dictionary vocabulary page-by-page, through written and oral practice.

**Listening and Speaking Activity Book**, for beginning-level ESL adults and young adults, is a teacher's resource containing more than 96 communicative activities—with reproducible activity sheets and picture cards—each one topically related to the Dictionary. A C-60 cassette is available separately.
